

K-LOVE radio is the only good radio station and the only one worth listening to as far as I am concerned. The others play music that encourages sex, drugs, alcohol use, and run ads for bars, clubs and things like that. If K-LOVE is replaced by an LPFM station there will be no good wholesome radio stations left to listen to. K-LOVE radio is in the best interest of the community because it offers a clear alternative to the other stations available. If K-LOVE is replaced, I will quit listening to local radio stations completely. Please don't take away my choice in radio stations. We need good choices, not more of the same low class type stations that fill most of the airwaves. Thank you!
